XTREME GUARDS XG1600

EXTREME CABLE/HOSE PROTECTION

Elasco has expanded its protection offering to now offer the Largest & Strongest Cable Protector ever.

Our 12 foot wide ramps offer 6" size channels with the ability to add as many additional channels as needed.

This revolutionary product offers the widest cable/hose ramp in the industry in order to provide the most vehicle friendly ramp. Large Construction & Mining equipment can easily travel over the product and cars are able to safely cross over to the other side. This smooth slope ensures a safer more user friendly experience while protecting your asset.
